Experience

- ### Editorial Televisa (FEBRERO 2019-OCTUBRE 2019)

  Developer C# (Selenium)

  I served as a junior developer in C #, collaborating in projects such as the automation downloads of the portals retail by the BI department, concentrating the information in our databases, for direct logistics control in the company.

  Developer .NET MVC

  I collaborated to develop the televisa editorial intranet, creating a merchandise tracking module, as well as homologation for the billing in the CXP team.

  Database Developer SQL, Docker

  I learned data mining within the company, so I carried out several projects for the approval of the information.

- ### Grupo Autofin México (OCTUBRE 2019-Actualidad)

  Developer .NET

  I performed a module for personnel movement, as well as a requisition for the hiring of employees.

  Developer Meta4 LN4

  I carry out projects for the Human resources team.
